**ANATOMICAL RANGOLI FAIR**

Organized By,  
 RACHANA SHARIR DEPARTMENT

25/08/2022

The collage features several anatomical illustrations: a central illustration of a human torso with various internal organs like the stomach, liver, and lungs; a 3x3 grid of small diagrams showing different parts of the human skeleton; a sequence of illustrations showing the development of a fetus from a zygote to a fully formed baby; and a detailed diagram of fetal circulation showing the heart, lungs, and umbilical cord.
